

HELLO THERE UP BIT TRADE

— your trusted partner for growing your wealth
and increasing your financial balance safely and
efficiently.

www.upbittrade.com

LET'S KNOW ABOUT IT

UPbit Trade is a newly introduced trading and investment platform powered by Smart Trade, a company that has been at the forefront of trading innovation for more than a decade.

Over the years, Smart Trade has equipped traders with powerful tools, advanced signals, and predictive insights designed to support smarter and more strategic trading decisions.

With UPbit Trade, the platform goes beyond serving only experienced traders. It creates opportunities for both traders and non-traders alike. Users can invest their funds confidently while benefiting from structured strategies designed to generate consistent returns.

In essence, UPbit Trade is built to bridge the gap between professional traders and everyday investors — making trading opportunities more accessible to everyone, regardless of their level of expertise or background in financial markets.

OUR BUSINESS

UPbit Trade is an advanced trading and investment platform built for both traders and non-traders. Our platform offers Smart Trading, Live Trading, and Crypto Staking solutions, delivering simple, secure, and reliable earning opportunities designed to help users grow their investments with confidence.

OUR SERVICES

✓ Smart Trade

A fully automated trading system designed to generate daily returns of 0.20%–12%.

✓ Crypto Staking

Flexible staking plans available for 7, 15, 30, 90, 180, and 360 days.

✓ Live Trade

Flexible trading options with Standard and Pro account types to suit different trading needs.

✓ Multiple Utilities

Access to a complete ecosystem including Exchange, Cloud Wallet, Simple Earn, Insurance, Airdrop, and Blockchain services.

150.00

REFER BONUS

You will get this reffer bonus when your downline do smart Trade in his account.

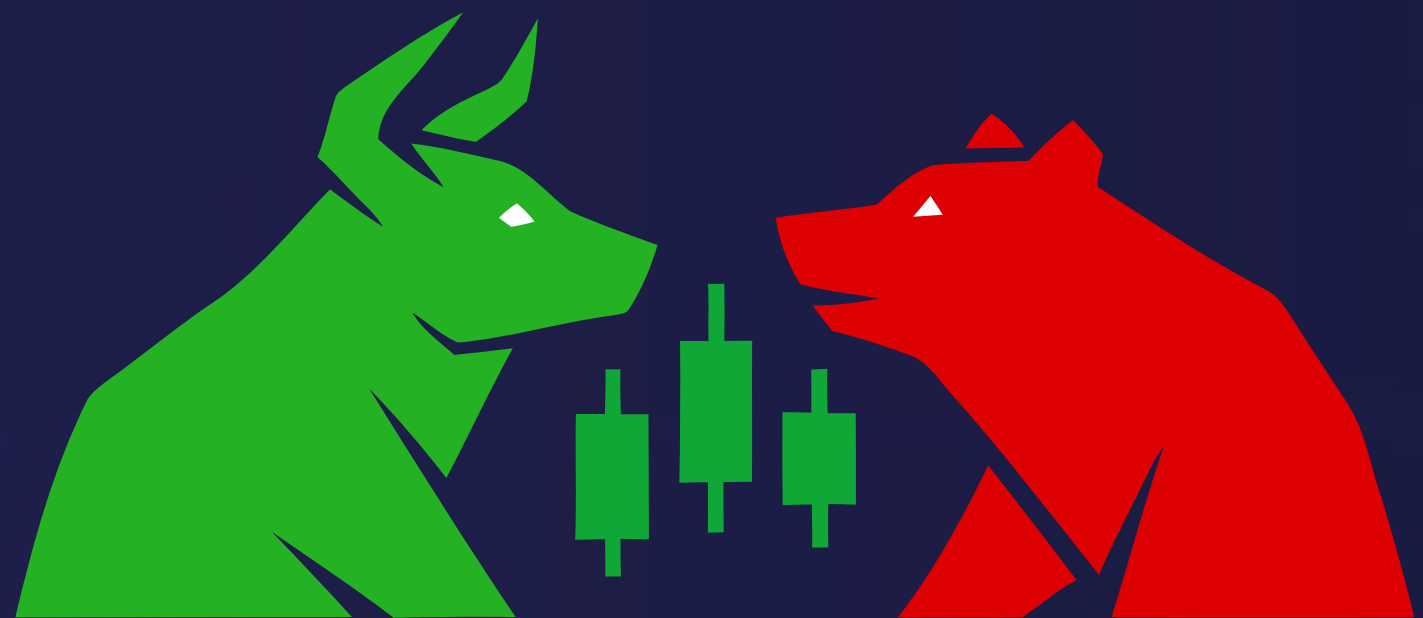

DESCRIPTION OF TRADING

USER CAN ENJOY 2 TYPES OF TRADING
SECTION

2

SMART TRADE

LIVE TRADE

A candlestick chart is positioned at the top center of the image. It consists of several vertical bars, some colored red and some green, representing price movements over time. The red bars indicate a decrease in price, while the green bars indicate an increase. The chart is set against a dark blue background with a subtle grid pattern.

LIVE TRADE IN DETAILS

LIVE TRADE HAS MAINLY 2 TYPES

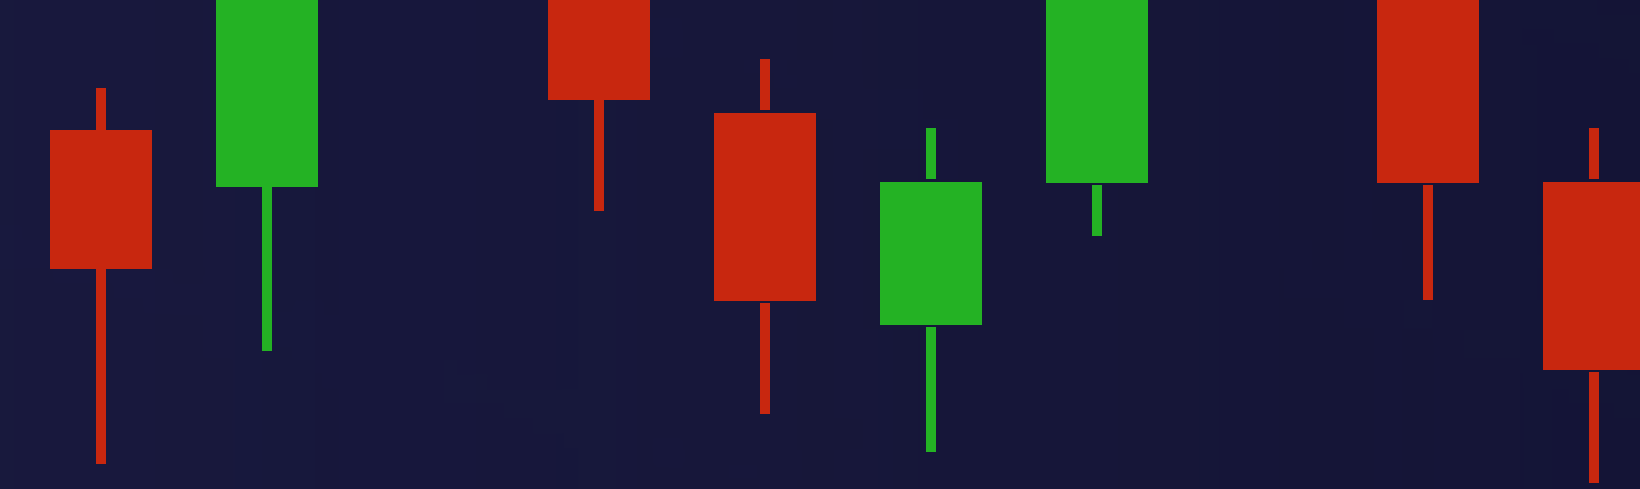

1. STANDARD TRADE

Standard Trade is built to be simple, flexible, and accessible for everyone. With lower entry requirements, it's an ideal starting point for beginners and casual traders looking to enter the market with confidence and ease.

2. PRO TRADE

Pro Trade is tailored for professionals, delivering raw spreads, lightning-fast execution, and premium trading conditions. It's the ultimate solution for experienced traders who require maximum control, precision, and efficiency in every trade.

STANDARD TRADE VS PRO TRADE

Feature	Standard Trade	Pro Trade
Target Users	Low deposit, easy access	Professional & experienced traders
Entry Requirement	Slightly higher (built-in commission)	Higher deposit, premium access
Spreads	Simple & flexible	Instant, advanced execution
Trading Style	Best for learning & small trades	Best for scalping, high-volume, and pro strategies

LIVE TRADE COMMISSION

For every lot traded by your downline, a \$10 profit is generated. This \$10 per lot is then distributed among the three upper generations based on the compensation plan.

This structure not only rewards network growth but also encourages better support and guidance. As your downline receives proper mentorship and trading assistance, clients are more confident and satisfied — creating a stronger, more successful trading community for everyone involved.

LET'S TALK ABOUT OUR SMART TRADE

Smart Trade is a system where trading is fully managed by intelligent automated systems instead of humans. Normally, traders analyze the market, make predictions, and place trades manually. However, our Smart Trade system performs all these tasks — from analyzing market movements to executing trades — automatically.

This makes the trading process faster, more efficient, and often more precise than traditional manual trading, as our advanced trading tools can analyze large amounts of data and detect patterns beyond typical human capability.

✓ **Note**

Users earn Smart Trade profits six days a week (**Saturday** is an off day). Daily returns range from a minimum of **0.20%** to a **maximum of 12%**, depending on market performance.

BENEFITS OF OUR SMART TRADE

✓ High Accuracy

Smart Trade systems analyze large volumes of market data and identify trends with precision beyond manual analysis

✓ Emotion-Free Trading

Unlike human traders, automated systems are not affected by fear or greed — ensuring disciplined and consistent execution.

✓ Faster Decision-Making

The system responds to market changes in milliseconds, allowing for timely and efficient trade execution.

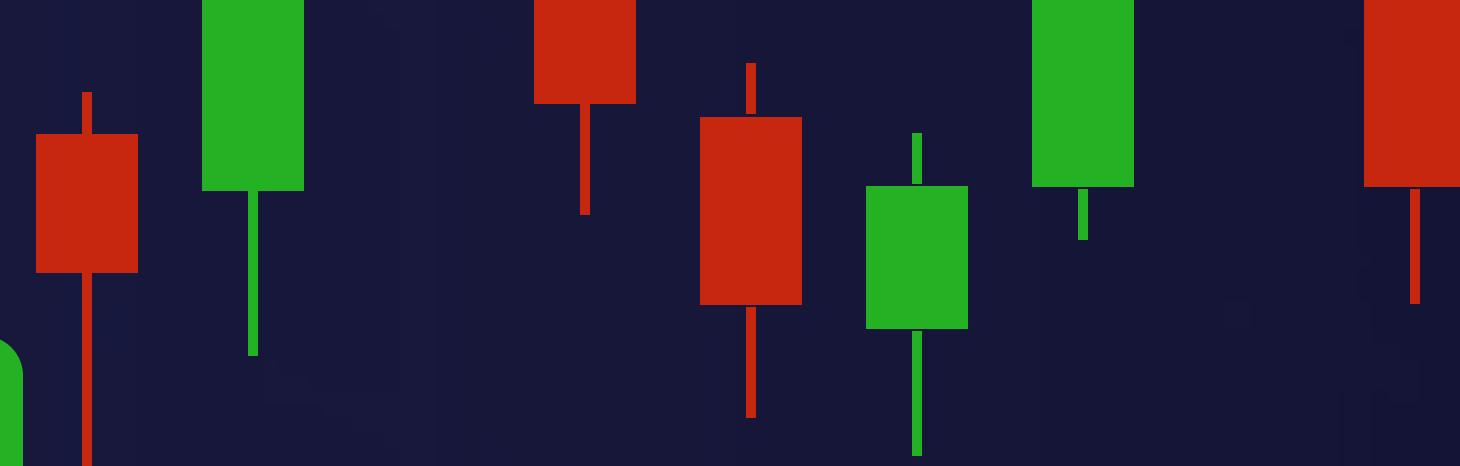

Smart Trade delivers accurate, fast, and emotion-free trading by continuously monitoring the market and executing trades automatically — saving time while ensuring consistent and disciplined performance.

✓ Time-Saving

No need to monitor charts all day. The system automatically executes trades on your behalf.

✓ 24/7 Market Monitoring

Smart Trade continuously tracks market movements, even while you sleep.

SMART TRADE PROFIT DISTRIBUTION & LOSS COMPENSATION POLICY

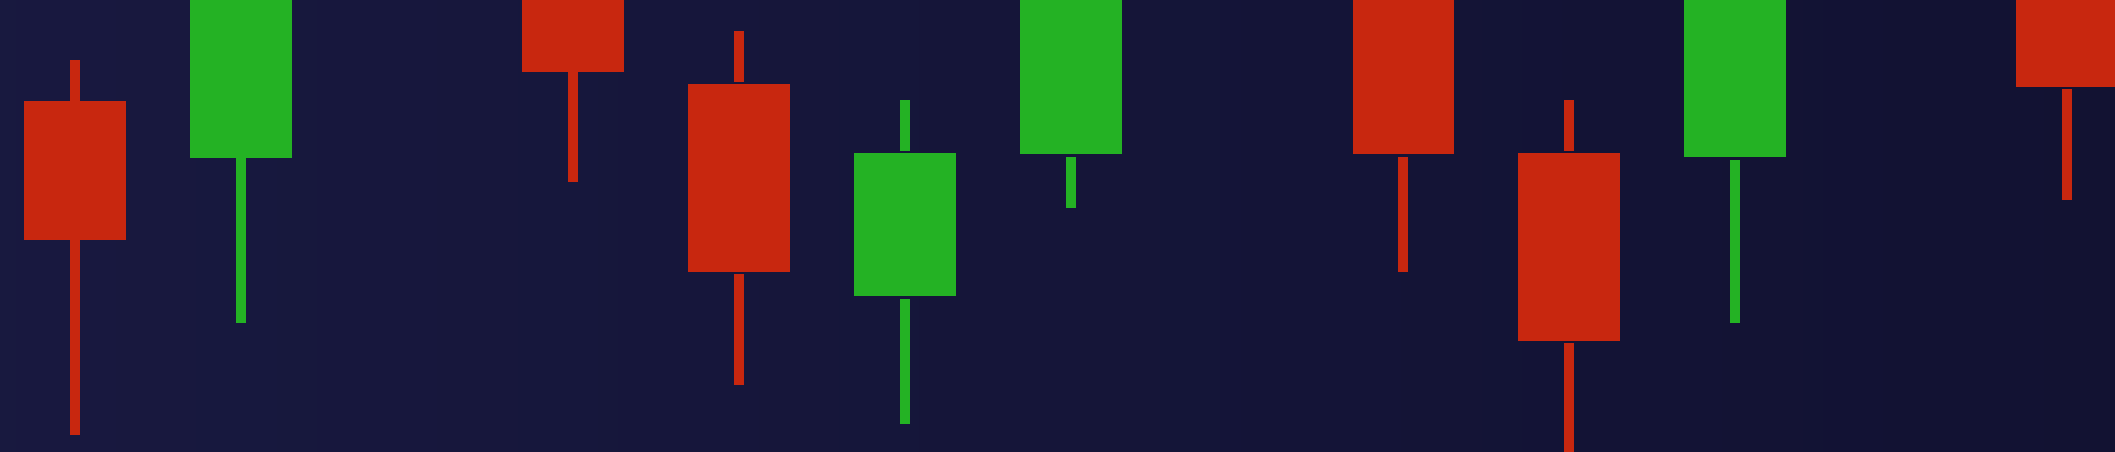

✓ Profit Distribution

- Profits shared proportionally to capital contribution
- Example: User **60%**, Company **15%** Upline **25%**

✓ Loss Compensation Policy

- If a user incurs a trading loss, the Company will automatically cover **50%** of the loss, which will be instantly credited to the user's account.
